### **STATEMENT OF FACTS**

10. On or about September 16, 2016, an explosion and fire occurred at the subject property; this caused damage to Plaintiffs' real and personal property (including an automobile), as well as the imposition of additional expenses and other harms besides – including but not limited to emotional and psychological injuries.

11. Subsequent investigation revealed that Monogram was retained and contracted with as the general contractor to design and install a heated swimming pool (and related facilities) at the subject property.

12. In the course of performing work relating to the pool job, with Plaintiffs as intended beneficiaries, Monogram subcontracted with Sharp and/or Dreisbach and/or Riegger to perform work that would allow fuel to feed the new pool heater; part of such work involved the installation of a riser manufactured (etc., as stated above) by Normac.

13. The failure of Defendants Monogram, Sharp and/or Dreisbach and/or Riegger to perform services relating to the installation of the fuel-feeding facilities consistent with the applicable standard of care caused and/or contributed to the explosion and fire that resulted in the

damages and other harms described herein that Plaintiffs suffered.

14. In addition, and/or alternatively, defects in a Normac riser that Defendants Monogram, Sharp and/or Dreisbach and/or Riegger used in installing the fuel-feeding facilities at the subject property caused and/or contributed to the explosion and fire that resulted in the damages and other harms described herein that Plaintiffs suffered.

15. Thus, as a direct and proximate result of the acts and omissions of Defendants as described more fully below, Plaintiffs sustained damages and other harms in an amount in excess of \$1,000,000.00.
